

Frosty: A Magical Adventure **Summary**

The Childrens' Theatre creates a holiday adventure that demonstrates the fact that the greatest joys in life are found in togetherness, celebrating the unexpected magic of the moment. Leave it to good old Frosty the Snowman to come to life and show us that love is the greatest magic there is.

Let's enter the Bennett household as they hurriedly ready themselves for their son, Drew's birthday party. It's too bad that his mom is so preoccupied with the holiday season to really enjoy the event. Drew has created an invitation list that fails to include a classmate named Grace, a girl that has been his friend in the past, but is not in the cool crowd at school. Grace is painfully aware of being left out, and comes to the Bennett's backyard to spy on the festivities with her little sister, Maddie.

With their imaginations running wild, Grace and Maddie romp in the snow outside the festively decorated house where the birthday party is being held. They are mere spectators of the fun that should be taking place inside with a magician that has come to entertain the boys and girls. But Grace and Maddie are wrong. Inside there are tricks taking place. The magic is taking place outside. As the two sisters creatively design a snowman using their grandfather's old silk hat, Maddie creeps up to the fire pit in the Bennett's yard to snatch some coal for the snowman's eyes. She is spotted from inside the enormous windows.

The party immediately adjourns to the outdoors and follows the snowman that has come to life. In the beauty of the snow, the kids share the magic and wonder of true friendship, and of a talking snowman that no one will soon forget. The surprises keep on rolling as two of Frosty's friends, Jack Frost and Susie Snowflake, come to join the fun and trip the light fantastic.

Like all things in life, changes take place. The next day, after taking the town by storm, Frosty must leave them. It is a terrible disappointment to the children, but they hang onto the hope as he melts away, that he will come again someday!

The seasons pass, and through the year, Grace holds onto the hope of seeing Frosty again. But no one can be sure. He may not come back for years to come. It is the first snow of the following year, when filled with anticipation and excitement, the children await his return. Just when they think it won't happen this year, little Maddie remembers the key. They all work together to place her grandfather's old silk hat on his head and Frosty opens his eyes once again. Everyone is overjoyed as he announces, "I'm back, baby, I'm back!"

Happy holidays! Share the spirit and remember the magic that can be found when people open their hearts and celebrate the magic of the love around them!
